White, RAL 9010 ☐

Natural anodized aluminium ☐

**WMX 814 E1** - Actuator with entrapment connection via the extra 2 core cables.

**WMX 814 E2** - Actuator with entrapment connection via the extra short cable.

## WMX 814 Chain actuator

1.47

### Description

- designed for surface mounting
- for smoke and comfort ventilation
- to be used with tophung, bottomhung and turning windows
- to be used together with  $\pm 24V$  control units or control units with MotorLink®
- can be used together with WMB locking actuator
- external safety edge can be connected directly to the actuator (actuator version 'E')
- synchronization of up to four window actuators – no need for an external synchronization module
- genuine position feedback and three speeds when using control unit with MotorLink®
- soft close function
- the electronics in this actuator can be programmed to suit specific requirements – i.e. pressure- and traction force, stroke, speed/sound level
- built-in electronic load switch-off/end stop
- electronic actuator with micro controller
- the actuator has an integrated reverse function to ensure a prolonged life span of the window gaskets

### Actuator variants

The actuator is available in four different versions: single actuator (-1), double actuator (-2), triple actuator (-3) and quad actuator (-4).

The synchro actuators (-2, -3 and -4) are equipped with a patented synchronization function, in which the actuators communicate directly with each other, which ensures the actuators operate at exactly the same speed and position. On large windows up to four actuators can be mounted on the same window – with no need for an external synchronization module.

### Pressure safety function

The risk of entrapment is reduced as the actuators are programmed to reverse if they encounter obstacles when closing.

### Opening speeds

Actuators connected to  $\pm 24$  VDC control units (e.g. WUC) can run with one speed.

Actuators connected to control units with MotorLink® (e.g. WCC) can run with three different speeds:

- automatically control speed – actuators run slowly and almost soundlessly.
- manual control speed – actuators run faster and more audibly.
- H&S and safety control speed – actuators run fastest. H&S control always has highest priority.

Technical specifications	
Pressure force	See diagram.
Traction force	See diagram.
Locking force	2000N
Chain stroke	50 – 1000mm in increments of 10mm. Special version up to 1000mm possible (only for bottom hung windows) – contact WindowMaster for further information.
Opening Speed	1-17 mm/s (TrueSpeed™)
Sound pressure level	≤25 dBA (operational speed: 1 mm/s), ≤42 dBA (operational speed: 10 mm/s)
Window type	Tophung, bottomhung and turning windows.
Power consumption	24V DC (max. 10% ripple)
Voltage	20-36V DC
Open-circuit voltage	Max. 36V DC
Current consumption	Max. 1A
Operating conditions	-5°C - +74°C. Max. 90% relative humidity (not condensing)
Switch-on-duration	ED 40% (max. 4min. per 10min). If speed < 20% ED 100%.
Colour	Standard colors: Black anodized aluminium, E6/EV1; Natural anodized aluminium, EV1; White, RAL 9010. Other RAL colours available at additional price.
Material	Anodized aluminium housing with steel chain. black anodized aluminium actuators: black silicone cable natural anodized aluminium actuators: grey silicone cable white actuators: grey silicone cable
Size	25 x 37mm (H x D), length (L) depending on chain stroke – see table.
Weight	400mm stroke: 1.36kg; 600mm stroke: 1.58kg; 800mm stroke: 1.80kg; 1000mm stroke: 1.97kg
IP rating	Surface mounted: IP 20, concealed: IP 32
SHE test	Approved according to EN 12101-2 with selected profiles – please contact WindowMaster for further information B300 tested according to EN 12101-2
Life span	Tested with 10,000 opening and closing movements.
Delivery	<b>WMX 814 S:</b> Actuator with 5m connection cable (3-core cables, 0.34mm <sup>2</sup> ) with fast-in/fast-on connector for WLL cable. <b>WMX 814 E1:</b> Actuator with 5m connection cable (5-core cables, 0.34mm <sup>2</sup> , with connection for external entrapment protection device) with fast-in/fast-on connector for WLL cable <b>WMX 814 E2:</b> Actuator with 5m connection cable (3-core cables, 0.34mm <sup>2</sup> ) with fast-in/fast-on connector for WLL cable, and 0,1m cable (2-core cables, 0.34mm <sup>2</sup> , with connection external entrapment protection device). External entrapment protection device not included. It can be supplied by an alternative supplier.
To be ordered separately	Brackets and standard extension cables type WLL.
Note	We reserve the right to make technical changes.

The sound pressure level was measured externally by The Danish Technological Institute. The measurements have been carried out in a large regular room size 7 x 14 x 2.4 m (W x L x H) with the ceiling covered with a standard sound absorbent material. The A-weighted sound pressure levels have been measured at a distance of 1 meter away from the surface of the actuators and at the height of 1.6 meters from the floor. The actuators were not installed on any window profile nor added any load. The full opening and full closing sound of the actuators have been measured and the result represents the average of the measurements.

Item code composition						
WMX 814	-n	x	yyyy	zz	v	1
						Product version: 1
						Certification: 0 = CE, E = CE + EN 12101-2, U = CE + UL
						Actuator hardware version: S = standard, E1 / E2 = with connection for safety device
						Chain opening: 50 – 1000mm, in increments of 10mm (0050 = 50mm)
						Colour: B = black anodized aluminium, G = natural anodized aluminium, W = white
